### **DETAILED ACTION**

Claims 28-37 are currently pending in the instant application. Applicants have cancelled claims 14-20 and 25-27 and added new claims 28-37 in an amendment filed on April 17, 2008. The Examiner tried to contact the attorney of record Hesna J. Pfeiffer to discuss some present issues in claims 33, 35 and 37 in order to place the instant claims in condition for allowance. However, the above attorney of record did not respond and therefore the Examiner has to issue another Non-Final rejection.

#### **I. *Response to Arguments/Remarks***

Applicant's amendment, filed April 17, 2008, has overcome the objection of claims 14-18 and 25-27 as containing non-elected subject matter and the objection of claims 19, 25 and 27 as containing informalities. The objections have been withdrawn.

#### **II. *Rejection(s)***

##### ***Claim Rejections - 35 USC § 112, 2<sup>nd</sup> paragraph***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 33, 36 and 37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 33 recites the limitation "compound no. 10 and compound no. 14" which is dependent on claim 28 but these compounds are not

Art Unit: 1626

supported by the genus formula I in claim 28. There is insufficient antecedent basis for this limitation in the claim. To overcome the rejection, Applicants should delete the above two compounds from claim 33.

***Claim Rejections - 35 USC § 112, 1<sup>st</sup> paragraph***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 35 and 37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The term "combination" of anti-cancer agents and a compound of the claimed invention is not defined in the specification to know what subject matter is included and/or excluded by the term. Therefore, the specification lacks adequate support for Claims 35 and 37. To overcome the rejection, Applicants should amend the term "combination" so that it reads "pharmaceutical composition" in claims 35 and 37.
